

### Investment Objective

The Unicorn UK Ethical Income Fund aims to provide an income by investing in UK companies which meet the ACD's ethical guidelines. For this purpose, UK companies are defined as those which are incorporated or domiciled in the UK, or have a significant part of their operations in the UK. Selection of such ethical equities will be undertaken on the basis of thorough company analysis, with ethical and socially responsible criteria reviewed at the point of investment and quarterly thereafter.

### Investment Policy/Strategy

The Fund may also invest, at its discretion, in other transferable securities, deposits and cash. The Fund may also enter into certain derivative and forward transactions for hedging purposes.

The Fund invests at least 80% in UK quoted companies with a bias towards small and medium sized companies (those with a market value of less than £4 billion). Some of the companies may be quoted on AIM. AIM is the London Stock Exchange's international market for smaller, growing companies. There is no guarantee that the target return will be achieved over a 3 year, or any other period, and investors should note that their capital is always at risk.

### Fund Commentary

The UK Ethical Income Fund delivered a return of +0.9% in February, compared to the IA UK Equity Income sector average total return of +2.6% over the same period.

The primary contributors during the period were Wincanton and Hostelworld, which added +0.4% and +0.3% respectively to overall Fund performance. Hostelworld announced that it had signed a €30 million five-year term loan facility, which materially strengthens its liquidity position.

The principal detractor during the month was Telecom Plus, whose share price continued to drift lower in the absence of notable news flow. The Fund's holding in Telecom Plus cost -0.4% in overall performance terms.

A position was initiated in Dunelm Group during the period. Dunelm is a high quality retailer with a strong balance sheet and an excellent track record of returning cash to shareholders. Dunelm has traded resiliently throughout the pandemic with strong online sales offsetting the impact of store closures.

Unicorn Asset Management Limited (Unicorn) is an independent, specialist fund management group, established in July 2000.

Unicorn focuses on long term, long only, investment in UK quoted companies and aims to achieve superior absolute returns through the application of traditional, fundamental principles of investment.

All figures within this factsheet have been calculated with reference to 28 February 2021 with exception to the on going charge figure which is based on the interim accounts for the 6 months ended 31 March 2020

- Past performance is not a guide to future performance. The value of investments and the income from them may go down as well as up and investors may not get back the full amount of their original investment
- Unicorn Asset Management do not give out investment advice, we recommend that you contact a financial advisor if you are unsure whether to invest
- Investors should also read the Prospectus and KIID document of the fund before making an investment
- Equities are subject to greater degrees of market risk than other types of investment, such as bonds or money market instruments. You should not invest unless you are prepared to accept a higher degree of risk
- Investing in smaller companies, including AIM companies, can carry greater risks than those usually associated with large capitalisation companies. Smaller companies are likely to be less established and may not have access to the financial resources available to their larger counterparts. The shares of smaller companies are relatively illiquid and under-researched.
- Taxation levels, benefits and reliefs may all vary depending on individual circumstances and are subject to change
- Opinions expressed in this factsheet are subject to change without notice.
- A key objective of the Fund is to provide income, therefore, some or all of the annual management charge is taken from capital rather than income. This can reduce the potential for capital growth.
- Unicorn Asset Management Limited are authorised and regulated by the Financial Conduct Authority.
